## Halosulfuron-methyl 75% WG

### 1. Identification

|                   |                            |
|-------------------|----------------------------|
| Product           | Halosulfuron-methyl 75% WG |
| Category          | Pesticides                 |
| Active Ingredient | Halosulfuron 75%           |
| Formulation       | WG Formulation             |
| CAS Number        | 100784-20-1                |
| Formula           | C13H15CIN6O7S              |
| Grade             | Agricultural Grade         |
| Standard          | FCO / ISO 17025:2017       |

### 2. Description

Halosulfuron-methyl 75% WG — professional-grade agricultural input.

### 3. Dosage & Application

|             |                                                                     |
|-------------|---------------------------------------------------------------------|
| Foliar      | Pre/post: 50-65 g/ha                                                |
| Application | Foliar spray, soil drench, fertigation, seed treatment as per label |

### 4. Storage & Packaging

|               |                                                                              |
|---------------|------------------------------------------------------------------------------|
| Shelf Life    | 2-3 years                                                                    |
| Storage       | Store 5-40°C                                                                 |
| Packaging     | 100ml-5L (liquids) / 100g-25kg (solids) — custom available                   |
| Compatibility | Compatible with most AIs. Jar test before tank mix. Avoid strongly alkaline. |

Follow all label directions. User responsible for compliance.
